My Projects

Web Development

Tour Planning and Booking Platform

A full-stack planning solution with features like multiple tour and hotel bookings, secure payments, and comments with replies.

ReactJS   NodeJS

MongoDB   Source Code

App Development

3D Shape Platform

A custom-build 3D shape viewer created from scratch without using any libraries. Currently supports interactive visualization of blocks, cylinders, and spheres in a 3D space. Users can rotate objects along the X, Y, and Z axes and zoom in/out for a detailed view.

Java   Source Code(Private currently)

App Development

Map Navigation

A map navigation app using OpenStreetMap data to find the shortest route with Dijkstra's and A* algorithms. It also features a maze generator (DFS) and compares maze-solving performance between Dijkstra's and A*.

Java   Source Code

My Friends :D

Hoang Thien An
Developer & Artist

We have been friends since grade 6. He enjoys watching 'crazy' stuff. Along with being a developer, he also wants to be an artist who is willing to redraw the Europe. Super optimistic!!

Developer Artist Very Lazy Connect

Nguyen Minh Thuan
Developer & Thai Jackfruit Lover

I met him in Chemistry Lab as my partner. He's super friendly and optimistic. For some reason, he's really into Thai jackfruit—no idea why! :3

Developer GTA 5 Player Connect

Pham Vu Hoang Bao
Developer & Soldier

I met him in a Military course, where he was the leader. Instead of calling him by name, I just call him 'Leader'. Everything he talks about is guns and war. He's very active and friendly, always saying 'đó đó 🐷'.

Developer

Call of Duty & War Thunder IRL Connect
