IT Project Operation Assistant Intern

EDUCATION

VNU - International University

Bachelor of Computer Science GPA: 3.31

Linh Xuân Ward, HCM City

Expected 01/11/2026

Thesis: Business Analysis and Implementation of an Integrated MOOC System Using Open edX and WordPress

Relevant Coursework: Software Engineering, Algorithms & Data Structures, Web Application Development, Object-Oriented Programming, Data Mining, Operating Systems

EXPERIENCE

ITP - VNU-HCM

Business Analyst & Frontend Developer

Ho Chi Minh City, Vietnam

10/2025 – Present

- Coordinated end-to-end project delivery for mooc.vnuhcm.edu.vn, managing stakeholder requirements, tracking implementation milestones, and maintaining documentation standards under a Design Science Research framework.
- Bridged communication between faculty stakeholders and the development team — scheduling feedback sessions, capturing action items, and following up until resolution to keep the project on track.
- Supported faculty members across VNU-HCM member universities in onboarding and adopting the MOOC platform, identifying workflow pain points and escalating system improvements to the technical team.

University of Economics and Finance (UEF) - IT Center

Software Development & QA Intern

Ho Chi Minh City, Vietnam

06/2025 – 08/2025

- Tracked defects, monitored resolution progress, and reported weekly status updates in agile review meetings over a 7-week internship — maintaining clear visibility of outstanding issues and closure timelines.
- Coordinated with backend developers via defined API contracts, ensuring alignment on deliverables, timelines, and integration requirements across teams.
- Delivered a full-cycle AI-powered feature (Node.js, ReactJS, Gemini API) from requirements definition through deployment, taking ownership of each phase within the SDLC framework.

NOTABLE PROJECTS

Tour Planning & Booking Platform

Team Lead & Project Coordinator

VNU - International University

09/2024 – 12/2024

<https://github.com/binhbb2204/Travel-App>

- Led sprint planning, task breakdown, and milestone tracking across a 4-person agile team; maintained a shared tracker for action items and deliverables, ensuring on-time integration and release.
- Coordinated requirement elicitation, prepared API specifications, and chaired code review sessions — keeping the team aligned on scope, acceptance criteria, and delivery cadence.

MangaHub

Team Lead & System Analyst

VNU - International University

10/2025 – 12/2025

https://github.com/binhbb2204/Group13_MangaHub

- Defined system architecture, API contracts, and integration test specifications across 30+ endpoints; produced design documentation used by the development team as the single source of truth.
- Managed cross-functional coordination between frontend and backend teams, tracking open issues and ensuring business requirements were met at each milestone.

Probability Query Language

Team Lead & Backend Developer

VNU - International University

04/2025 – 06/2025

<https://github.com/binhbb2204/Proba-DM-Language>

- Produced integration documentation and example scenarios that reduced cross-team ambiguity; followed up with frontend teammates to verify behavior and close outstanding issues.

Railway Management System

Team Lead & Full-Stack Developer

VNU - International University

03/2024 – 05/2024

<https://github.com/binhbb2204/railway-app-web>

- Coordinated requirement definition and task delegation across a multi-role team, overseeing delivery of a full-stack booking platform (React, Node.js, Express, MySQL) with admin monitoring dashboards.

SKILLS & INTERESTS

Project & Operations: Agile/Scrum, Sprint Planning, Stakeholder Coordination, Requirements Elicitation, Use Case Modeling, Process Documentation, SDLC, Trello

Productivity: Microsoft Word, Excel, PowerPoint; draw.io, PlantUML, Google Workspace

Technical: JavaScript, ReactJS, Node.js, Python; MongoDB, MySQL; REST APIs, Git, GitHub, Postman

Language: Vietnamese (Native), English (Fluent)

Interests: Project operations, stakeholder coordination, execution excellence in global product environments
